ment is largely a repetition of a prior report. The old report contained detailed information of the labors, findings, and recommendations of the commission in more than 100 claims. Congress took ac tion on this report and approved nearly all the recommendations made, but referring several back to the commission It is upon these claims and a few new opes the commission now takes action. Senator McMillan's report says that under the direction of Congress the commission bas arefully re-examined the claims referred back, and has heard the evidence of nu nerous witnesses. THE FORD THEATER CLAIMS THE OUTRAGE ON SANGUILLY MRS. STEVENSON CHOSEN

of a crime, the punishment of which is imprisonment in chains for life."

After the debate on the Cuban question had come to a close a motion was made by Mr. Allen to report the joint resolution to the Senate, the discussion having been in Committee of the Whole. The motion was ngreed to-yeas, 40; nays, 27.

A DECISION REACHED.

The President to Demand Sanguilly's Immediate Release.

The Senate Committee on Foreign Relations held a special meeting this morning for the purpose of again considering the resolution reported yesterday, instructing the President to demand the immediatere lease of Julio Sanguilly, an American citizen now confined in prison in Cuba. This meeting was forced by the attitude of the members of the Committee on Appropria tions, who, through Chairman Allison, gave notice yesterday afternoon that all business must give way to appropriation bills. The Committee on Foreign Relations believes that the situation in Cuba demands the attention of the Senate fully as much as do the appropriation measures, especially in view of the treatment of Sanguilly and the repeated violations of the treaty rights of Americans in the island.

The case was carefully discussed this morning, and the committee reached the utaminious conclusion that the Senate can afford to wait no longer for Spain to keep her promise, made to Secretary Olney, to release Sanguilly, and the decision was reached to insist upon the consideration and passage of the resolution to the opposition of appropriation measures and everything else.

THEY HOPE IT IS TRUE. Senators Would Rejoice if Gen. Lee Had Received His Passports.

The report that Consul General Lee had been given his passports by the Spanish authorities in Cuba caused a flutter at the Senate end of the Capitol, where the action of the Senate committee on the Sanguilly case has revived interest in Cuban affairs Senators are goarded in their utterances, preferring to await some confirmation of the report before committing themselves to statements that were on the tip ends of their tongues.

It is not beyond the truth to say that very considerable portion of the Senate hopes the report is accurate, for they say that bothing short of an overt act on the part of Spain sufficient to compel this government to assert itself, will bring the trouble on that island to an end, or oring about the protection of American citizens

"I hope to heaven the report is true," said one of the members of the Committee on Foreign Affairs, when told of the bulletin that had been posted in New York. "If it prove to be the case there is but one way out of the thing and the United States will be compelled to take a hand in Coban matters."

Several members of the Foreign Relations Committee were at the reception at the British embassy last night. One of these Senators, meeting Secretary Olney, found a moment in which to ask him if there was anything new in the situation inding the Secretary that the committee of which he was a member had a special meeting this morning. Mr. Olney replied to the request for information, this Senafor says, with the single remark that he had bothing to say, but must refer the Senators to the newspapers, which appeared to be furnishing the Cuban news no wadays.

OLNEY STILL DENIES

Declares Gen. Lee Neither Resigned Nor Asked for Warships.

From two distinct sources statements were received here early this morning that Consul General Lee, at Havana, "bad received his passports." This rumor naturally caused excitement and a general de sire was expressed to know definitely whether General Lee's contemplated withdrawal from Havana was his own act, resulting from the acceptance of his resigday, or whether it had been brought about by the action of the Spanish authorities in Cuba, in which latter case, its sig-

nificance would be much more marked. Inquiries in official quarters elicited strong dentals of the rumor. The wellknown fact was pointed out that passports were not given to consuls, but only to ministers and ambassadors; that in th case of an offending or returning consul the document sent him on his departure was his "exequatur" of official docu ment, recognizing his right to exercise the functions of his office, and it was said that not even the semi-diplomatic position ac corded to our consul general at Hayana by consent of the Spanish government would render his a case where "passports" would

be required. The return of his "exequatur" to the onsul general would, of course, be equivalent to the sending of "passports" to the well as at the State Department, it was emphatically asserted that this course had not been taken. The denials were quite as emphatic as those previously put out in regard to Gen. Lee's request for warships and the conditional tender of his resignation, if this request should not be

granted. It was stated on the direct authority of a member of the Cabinet that Secretary Olney stated to his associates at the Cabinet meeting on Tuesday last that it was not true that Lee had resigned or that he asked for warships. Mr. Olney at this time added that the exciting statements put out were simply an attempt to "run the State Department through the news papers."

It was again said this morning as coming from Secretary Olney that there was no change in the Cuban situation. Thus the nutter rests.

Unanimously Elected President General of the D. A. R.

SHE WANTED TO DECLINE

Her Wishes, However, Were Not Deferred to-Balloting for Vice President General Begun-Other Officers Will Be Chosen This Afternoon and Evening.

Mrs. Letitia Green Stevenson, wife of the Vice President of the United States, was this morning re-elected to be presi dent general of the Daughters of the American Revolution. The congressordered that the secretary cast a ballot to accomplish her formal election. This was done by a unanimous vote.

The choice was greeted by prolonged cheering, and Mrs. Stevenson was not permitted to decline. There were, howver, as in every such case some signs of disapproval.

After the minutes, a fareweil greeting was presented from Mrs. Anna B Snow, president of the Daughters of the Revolution, who has left the city. She expressed a hope that the union which she, in common with members of the society, addressed, desired to see, was the nearer for conferences held during the week.

The regular order was the election of officers. A motion by Mrs. Jewell, of Chicago, that a parliamentarian be em ployed at every session was tabled upon motion of Mrs. Brackett.

It was found difficult to secure tellers Mrs. Stevenson suggested that some of the Sons might be invited to assist them and she named Gen. Greely and Commander Dickins as likely to do them this favor. The difficulty was to secure members who were not entitled to vote. It was finally suggested that alternates in the gallery could serve, and tellers were finally named as follows:

Mrs. Fitzwillians, of Chicago, Mrs. Thurson, Mrs. Hoge, Mrs. Rice, Mrs. Charles K. Smith, Miss McKnight, Mrs. Tenney, Mrs. Hall, Mrs. Brush, Mrs. Coleman, Mrs. Pettitione, Miss Jones, Mrs. Goss, Mrs. Hatch, of Washington.
A petition was presented to Mrs. Donald

McLean during the morning, asking that she should not become a candidate for any office which would deprive the New York hapter of her services as regent. aper states that it is largely due to Mrs. McLean's services that the chapter has lourished as it has. The names of several undred members are attached.

Mrs. Litman moved that State regents de-posit the ballots for their States and be sponsible for the number. Mrs. Donald McLean amended this, making it the rule for delegates to deposit their own ballots The motion was passed with the amendment

Miss Virginia Miller, regent for the Dis trict, nominated Mrs. Stevenson to suc-ceed herself as president general. This was eceived with great enthusiasm by the detegates. When the applause and waving of andkerchiefs had subsided Mrs. Putney regent for Virginia, came to the stage and seconded the nomination. She said in part:
'I count it one of the highest honors of my life to stand here and second Miss Miller's nomination of Mrs. Stevenson. I have heard it as a rule in whist. When in doubt lead trumps. With so many splendid ladies from whom to choose for our president general we are in doobt. Let us follow the rule and name Mrs. Stevenson to succeed

There was objection to this, but the great majority were in favor of the motion. The objection was from a New York

delegate. Mrs. Stevenson said she felt that if one roice objected she must not accept. Miss Ballinger moved and Miss Eogenia Washington seconded that the delegate be asked to withdraw her objection. The New York State regent explained that the delegate had objected under the impression that the motion was out of order. The

ember then withdrew her objection. The motion was put and by Mrs. Brackett, first vice president general, declared carried, without calling for the negative vote. It was noticed that two or three delegates attempted to object, but they were dissunded by those about them. It was afterward stated that a lady had attempted to get recognition to object at

the last, but the name was not furnished for publication. Mrs. Stevenson then said "The last thing the Vice President of the United Staces, my honored husband, said to me this morning was, that under no circum stances should I again accept the position. It is the impression that there is no labor

connected with it." 'No, no," came from the congress "But if any one of you will attempt to appoint one important committee from the large number of capable ladies who are fitted for the service, you will appreciate when you lie down weary at night a little

of the wort that falls to this office." But Mrs. Stevenson was finally induced to accept. This is Mrs. Stevenson's fourth term as president general. Mrs. Harrison was the first to hold the place. This was when her husband was President. Mrs. Stevenson succeeded her and held the place for two terms. It was contrary to the and Mrs. John W. Foster was chosen. At the expiration of her term last year

Mrs. Stevenson was again chosen. Nominations for first vice president were made as follows: Mrs. A. G. Brackett, Mrs. J. J. Bullock, of Kentucky; Mrs. Mary E. Hill, of Connecticut; Mrs. John L. Mitchell, Mrs. Walker, State regent of Illinois; Mrs. John M. Jewett, and Mrs. Daniel Manning. All these withdrew except Mrs. Brackett and Mrs. Dr. Mo-Gee, both of the District of Columbia.

There was considerable confusion in reaching this result. Mrs. Manning was named by Miss Pike, of Washington, and her name was received with applause.

But a few moments later her name was

The Weather Bureau has discontinued he bulletins from Harper's Ferry and other

points, as it is clear that all source of apnsion is past. The Washington aqueduct officials bay also stopped the hourly observations which have been kept up for the past two days. They reported this morning that the fall in he water between Georgetown and Great Falls has been less than six inches in the past twenty four hours, but, of course, this is to be expected, as the actual subsidence of the river at this point is at least a day later than the fall at Harper's Ferry. However, the real decrease will came
